

Product overview

The Nobi Button is a stylish switch that generates its own energy with each click: no connection with electricity or batteries required. Easy to install yourself wherever you want thanks to the practical adhesive strips. Within this product line, 3 versions will be available, each with their own functionalities.

Product name	Nobi Button	
Model number (SKU)	Nobi Call Button:	144006
	Nobi Light Button:	144007
	Nobi Presence Button:	144008

Call Button: Resident call button that immediately sends a call signal to care staff when pressed.

Light Button: Light button that switches the light of the Nobi Lights on and off without interfering with the operation of its fall prevention and fall detection features.

Presence Button: When pressed, 2 options are available:

- Snooze Feature: You indicate that there is an extra person in the room, so the light will not detect falls for 15 minutes.
- Close a fall: You enter the room to help a resident right after a fall, letting the light know that help has arrived.
